HO-1: Setup A CD Catalogue

Create a CD catalogue with your 3 best titles. Follow the following steps:

- Step 1: Use notepad++ to create a text file and save it as MyCDCatalogue.xml.

- Step 2: Type the following on the first line of the xml document: <?xml version="1.0" encoding="UTF-8" ?>

- Step 3: Make use of the following elements to describe your data: title, artist, country and year.
